

Vendors with Digital Imaging and Communications in Medicine (DICOM) Conformance Statements
And Integrating the Healthcare Enterprise (IHE) Eye Care Integration Statements

The Academy supports DICOM standard and IHE Eye Care Integration Profile implementation in eye care. The Academy does not certify vendors' conformance with DICOM standards or with IHE Eye Care Integration Profiles, nor does the Academy verify the accuracy of DICOM Conformance Statements and IHE Integration Statements. Potential purchasers should refer to the individual vendors' IHE Integration Statements and DICOM conformance statements to see exactly what software versions are able to be integrated and for additional details. The following table lists vendors which have participated in IHE Eye Care Connectathons and vendors which have not participated in Connectathons, and links to DICOM Conformance Statements and IHE Integration Statements.
